*Education isn't just about school, classes and grades. It is about knowledge that won't fade with time. It is about skills that makes a person efficient and competent, it is about attitude that not only allows a person to become a better human being but also contributes to build a great nation.*

*NCET is doing a great job by conducting skill development courses for the students, who want to enhance their expertise in different fields.*

*In Chhattisgarh we have many tribal districts. In these areas, in spite of our lot of efforts, students stopped their studies after schooling. I think, for these young people the skill development programmes will be very useful.*

*I am grateful to Hon. Prime Minister sir and govt. of India for the great vision. All necessary assistance will be imparted to NCTE,, by Chhattisgarh to emplement the project in the state.*

*I wish NCET good luck for their wonderful effort.*
